# Problem 4 – Beats Landing Page

Beats by Dre, 2017©

Create a Web site (HTML5 + CSS3 + images) that looks and behaves like the screenshots below:

The hand cursors in the screenshots show what happens when the mouse moves over certain elements.

Input

You are given the above screenshots + the texts on the site + the images.

Output

The output should be valid HTML5 + CSS3 + images that implement the above Web site.

Constraints

- Fonts:
  - Use google font **Open Sans** -https://fonts.googleapis.com/css?family=Open+Sans:400,900
- The button hover is valid for all buttons on the page.
- The site should open correctly in latest version of Chrome.
- Responsive design is not required.
- Pixel-perfect implementation is not required.
